Geriatrics

INDEX to VOLUME 18

January 1963—December 1963

SUBJECT INDEX

Abscess, lung, pyogenic, diagnostic difficulties and treatment (Wolcott & Morgan) 378 (May)
Adrenal gland changes with aging (McGavack) 189 (Mar.)
Aging and aged
  accomplishment and adjustment after middle age (Graham) 778 (Oct.)
  "activity therapy," factors in patient attitudes toward (Lewis) 725 (Sept.)
  behavior patterns of psychiatric patient (Rosenblum & Bachrach) 247 (Mar.)
  biologic, psychologic, and social growth potentials (Bortz) 233 (Mar.)
  Committee on Aging of A.M.A. reports (editorial, Alvarez) 503 (July)
  community attitudes and care (Linden) 404 (May)
  concepts of organizational levels of living material and biology of senescence (editorial, Leake) 339 (May)
  continuing education program (Kassel) 575 (July)
  cultural attitudes toward, in various societies (Slater) 308 (Apr.)
  degeneration often due to disease not age (editorial, Leake) 794 (Nov.)
  degenerative and infectious disorders (Schlezinger) 197 (Mar.)
  endocrinologic aspects (McGavack) 181 (Mar.)
  epidemiology of chronic disease (Ehrlich) 552 (July)
  financial reserves, difficulty of obtaining valid statistics on (editorial, Alvarez) 587 (Aug.)
  health problems of noninstitutionalized persons, Cornell University survey (editorial, Leake) 166 (Mar.)
  "holiday care" plan in England (editorial, Alvarez) 411 (June)
  home medical care (editorial, Leake) 258 (Apr.)
  mental senility, possibilities of treatment (Alders) 315 (Apr.)
  multiple pathology revealed by autopsy of 40 nonagenarians (Howell) 899 (Dec.)
  natural and disease processes (Middleton) 168 (Mar.)
  neuropathologic aspects (Berry) 202 (Mar.)
  nursing home care of psychological and neurological cases (Cohen) 871 (Nov.)
  occupational therapy, preventive and institutional use (Wolff) 251 (Mar.)
  physician use, factors in (Taubenhaus & McCormick) 122 (Feb.)
  physiologic and chemical factors, measurements (editorial, Alvarez) 255 (Apr.)
  psychiatric evaluation by physician and self-examining patient (Butler) 220 (Mar.)
  psychomotor slowing (Birren) 393 (May)
  psychoneurotic and emotional problems, preventive and therapeutic planning (Davis) 238 (Mar.)
  recent emergence of aging as recognized social problem (Duncan) 629 (Aug.)
  vascular disorders (Alpers) 192 (Mar.)
  virility no yardstick of ability (editorial, Alvarez) 588 (Aug.)
Alcoholism and speech defects (Nielsen) 832 (Nov.)
Allergies
  inhalant, emulsified extract treatment (Brown) 27 (Jan.)
  summer: inhalation, ocular, and cutaneous (Tuft & Girsh) 565 (July)
  see also Asthma
Alzheimer's disease
  as cause of speech deficits (Nielsen) 831 (Nov.)
  comparative description (Berry) 207 (Mar.)
  comparison with other degenerative disorders (Schlezinger) 198 (Mar.)
Aneurysm
  aorta, differentiation from other causes of chest pain (Rawlings) 142 (Feb.)
  intracranial rupture, intensive medical treatment with hypotension (Slosberg) 557 (July)
Antibiotics
  for chronic bronchitis (Lepper) 102 (Feb.)
  for various types of pneumonia (Reimann) 435 (June)
Anticoagulants
  for myocardial infarction, appraisal (Blake) 291 (Apr.)
  heparin to reduce serum cholesterol (Parsons) 37 (Jan.)
  long-term, choice of patients and drug; control methods (Vigran) 916 (Dec.)
  role in therapy of cerebrovascular accidents (Cain et al.) 512 (July)
Anus, value of routine proctoscopy (Linn et al.) 877 (Nov.)
Arm, fracture of surgical neck of humerus, initial treatment (Drapanas) 538 (July)
Arrhythmias due to digitalis overdosage (Dreifus et al.) 494 (June)
Arteries
  carotid kinking causing cerebral insufficiency, diagnosis and surgical treatment (Derrick) 272 (Apr.)
  changes with aging (Middleton) 170 (Mar.)
  coronary *see* Coronary artery disease
  renal stenosis causing hypertension, diagnosis and surgical treatment (Gifford & Poutasse) 761 (Oct.)
  ruptured aneurysm, hypotensive medical treatment (Slosberg) 557 (July)
  see also Atherosclerosis; Blood vessels; Cerebrovascular disorders
Arthritis
  associated with cancer (Mackenzie & Scherbel) 745 (Oct.)
  program to relieve pain, maintain function, and avoid deformity (Jeffrey) 663 (Sept.)
  see also Gout
Aspirin for arthritis, bleeding with (Jeffrey) 666 (Sept.)
Asthma
  intractable, emotional factors (Kraft) 361 (May)
  seasonal aspects (Tuft & Girsh) 566 (July)
  severe, differential diagnosis and steroid and long-term treatment (Itkin) 696 (Sept.)
Atelectasis, pulmonary, biopsy evidence of alveolar smooth muscle action (Corssen) 568 (July)

Atherosclerosis
accelerating hypertension (Martz) 941 (Dec.)
mural thrombi in etiology (editorial, Leake) 259 (Apr.)

B

Bananas in geriatric and low-calorie diets (Gasster) 782 (Oct.)
Biopsy
conization of cervix, accuracy in diagnosis of cancer (Schulman) 608 (Aug.)
scalene node, in diagnosis of lung cancer (editorial, Briggs) 880 (Dec.)
scalene node, in diagnosis of lung cancer and assessment of operability (Lees) 933 (Dec.)
Bladder
neurogenic, diagnosis and surgical treatment (Thompson & Dingsor) 85 (Feb.)
neurogenic, surgical treatment (Clark) 276 (Apr.)
Blood
disorders in aged (Middleton) 172 (Mar.)
see also Blood pressure; Blood vessels; Circulation; Transfusions
Blood pressure
regulation after ruptured intracranial aneurysm (Slosberg) 560 (July)
see also Hypertension
Blood vessels
adjustment to and disorders of aging (Alpers) 192 (Mar.)
peripheral vascular disease, indications for long-term anticoagulant therapy (Vigran) 919 (Dec.)
see also Arteries and its cross references
Bones
changes with aging (Middleton) 173 (Mar.)
musculoskeletal symptoms in cancer (Mackenzie & Scherbel) 745 (Oct.)
osteoporosis, relation to serum calcium and phosphorus (Pelz et al.) 349 (May)
osteoporosis: types, diagnosis, and treatment (Chu & Abramson) 679 (Sept.)

BOOK REVIEWS
Bacon & Recio: Surgical Anatomy of Colon, Rectum and Anal Canal 92A (Jan.)
Balint & Balint: Psychotherapeutic Techniques in Medicine 116A (May)
Benson & Schiele: Tranquilizing and Antidepressive Drugs 102A (Apr.)
Bernreiter: Electrocardiography 110A (Dec.)
Bromberg: Nature of Psychotherapy 92A (Feb.)
Burch: Primer of Cardiology 120A (Nov.)
Charitable Research Foundation: Effective Standards for Institutional Care of Infirm Aged 108A (July)
Chusid & McDonald: Correlative Neuroanatomy and Functional Neurology 108A (Mar.)
Corsellis: Mental Illness and the Aging Brain 90A (June)
Freeman: Clinical Principles and Drugs in the Aging 110A (Oct.)
Goldberg & Rimington: Diseases of Porphyrin Metabolism 108A (Mar.)
Hazell: Elderly Patients, Their Medical Care Before and After Operation 118A (Nov.)
Hofling: Textbook of Psychiatry for Medical Practice 108A (Oct.)
Howard: Cardiovascular Surgery, 1962 106A (Sept.)
Isaacs: Introduction to Geriatric Medicine 114A (May)
Jesseph & Harkins: Geriatric Surgical Emergencies 90A (June)
Kahn: The Past Is Not Past 106A (July)
Khabarova: Afferent Innervation of Heart 104A (Aug.)
Kinsella: Tumors of Chest 100A (Aug.)
Love & Childers: Listen to Leaders in Medicine 118A (Nov.)
McHenry & Beaton: Basic Nutrition 102A (June)
Medes & Reimann: Normal Growth and Cancer 112A (Oct.)
Musson & Heusinkveld: Buildings for Elderly 100A (Aug.)
Nodine & Moyer: Psychosomatic Medicine 96A (Jan.)
Ogilvie: Fifty: An Approach to Problems of Middle Age 110A (Dec.)
Pearson: Strecker's Fundamentals of Psychiatry 110A (Sept.)
Peyton: Practical Nutrition 92A (Jan.)
Post: Significance of Affective Symptoms in Old Age 114A (Dec.)
Randall: Sixty-five Plus: Joy and Challenge of Years of Retirement 104A (Sept.)
Sackville-West: All Passion Spent 659 (Sept.)
Schifferes: Essentials of Healthier Living 110A (Oct.)
Shanas: Health of Older People 114A (May)
Shock: Classified Bibliography of Gerontology and Geriatrics 104A (Sept.)
Sunderman & Sunderman: Evaluation of Thyroid and Parathyroid Functions 106A (July)
Tourlentes et al.: Research Approaches to Psychiatric Problems: Symposium 104A (Apr.)
Townsend: The Last Refuge 102A (June)
U.S. Public Health Service: Human Aging: Biological and Behavioral Study 40A (Aug.)
Woodford-Williams & Exton-Smith: European Clinical Section of International Association of Gerontology 102A (Apr.)
Brain
appetite and hunger centers (editorial, Leake) 341 (May)
changes which cause a delay in answering questions (editorial, Leake) 587 (Aug.)
degenerative and infectious disorders (Schlezinger) 197 (Mar.)
lesions and disease causing speech deficits (Nielsen) 831 (Nov.)
morphologic and pathologic changes with aging (Berry) 202 (Mar.)
surgery in stroke patients (Cain et al.) 514 (July)
tumors, types and incidence in older patients (Kurtzke) 211 (Mar.)
see also Cerebrovascular disorders
Breast
cancer, review of present methods of treatment (Ferguson) 815 (Nov.)
precancerous potential of cystic mastitis (Ochsner) 343 (May)
surgery, present techniques (Ferguson) 818 (Nov.)
Bronchial adenoma, diagnosis and treatment (Zellos) 107 (Feb.)
Bronchitis
chronic, drug treatment (Lepper) 98 (Feb.)
differentiation from other causes of chest pain (Rawlings) 147 (Feb.)
Bronchoscopy in respiratory complications of chest surgery (Gilston) 533 (July)
Busulfan for polycythemia, hematologic data on effects (Brodsky) 463 (June)

C

Calcium, relation of blood levels to osteoporosis (Pelz et al.) 349 (May)
Calculi *see* Gallbladder
Cancer
  breast, developing in cystic mastitis (Ochsner) 343 (May)
  breast, review of present methods of treatment (Ferguson) 815 (Nov.)
  cervix, value of cone biopsy (Schulman) 608 (Aug.)
  connective tissue syndromes associated with (Mackenzie & Scherbel) 745 (Oct.)
  esophagus, surgical treatment (Gregorie) 73 (Jan.)
  gastrointestinal, danger of development in polyps (Colcock) 519 (July)
  larynx, treatment according to functional ability (Barton) 283 (Apr.)
  lung, relation to smoking (editorial, Alvarez) 879 (Dec.)
  lung, scalene node biopsy in diagnosis and assessment of operability (Lees) 933 (Dec.)
  radiation therapy, uses and reactions (Turner) 39 (Jan.)
  skin, biopsy diagnosis; radiation and surgical treatment (Knox & Freeman) 654 (Aug.)
  skin, diagnostic accuracy in various types (Freeman & Knox) 546 (July)
  stomach, tetracycline fluorescence of gastric sediment in diagnosis (Berk & Kantor) 787 (Oct.)
  thyroid, relation to nodular goiter (Marchetta) 602 (Aug.)
Cells, degenerative changes with aging (Berry) 205 (Mar.)
Cerebrovascular disorders
  causing speech deficits (Nielsen) 828 (Nov.)
  current techniques of diagnosis and treatment (Cain et al.) 507 (July)
  factors in circulatory insufficiency (Alpers) 194 (Mar.)
  insufficiency due to carotid kinking, diagnosis and surgical treatment (Derrick) 272 (Apr.)
  long-term anticoagulant therapy, indications for (Vigran) 917 (Dec.)
  new and old books of value (editorial, Alvarez) 337 (May)
  prognosis, factors in (Cooper et al.) 3 (Jan.)
  psychologic aspects (Davidson) 151 (Feb.)
  retrograde cerebral angiography, diagnostic advantages and technique (Kuhn) 796 (Nov.)
  ruptured aneurysm, intensive medical treatment with hypotension, effectiveness (Slosberg) 557 (July)
Chest
  pain, differential diagnosis (Rawlings) 139 (Feb.)
  surgery, respiratory difficulty following: bronchoscopy, tracheostomy, and respirator therapy (Gilston) 533 (July)
Cholesterol *see* Lipids
Circulation
  disorders of aging (Alpers) 192 (Mar.)
  time, increase in healthy older people (editorial, Leake) 730 (Oct.)
  see also Blood vessels; Cerebrovascular disorders
Clinicopathologic conference on bacterial endocarditis (Wang et al.) 320 (Apr.)
Colchicine, mechanism of action in gout (McCarty 470 (June)
Collagen, role in aging process (Viewpoint) 38A (Oct.)
Colon
  functional problems of digestion and elimination (Klotz) 373 (May)
  polyps, malignant potential and surgical treatment (Colcock) 520 (July)
  subclinical diverticula, relation to irritable colon (Thompson & Polish) 485 (June)
Coma, diabetic, management (Faludi) 455 (June)
Connective tissue syndromes associated with cancer (Mackenzie & Scherbel) 745 (Oct.)
Contraceptives, oral, lengthening effect on fertility span (editorial, Leake) 412 (June)
Constipation, development as body functions slow 74A (July)
Coronary artery disease
  atherosclerotic, effect of female castration and hysterectomy on (Williams & Novak) 852 (Nov.)
  effect of cream intake on ECG and coagulation time in (Geill) 867 (Nov.)
  long-term anticoagulant therapy, indications for (Vigran) 916 (Dec.)
  relation to smoking (editorial, Alvarez) 879 (Dec.)
  shoulder-hand syndrome with (Rosen & Graham) 525 (July)
Corticosteroids *see* Steroids
Cushing's disease, osteoporosis due to (Chu & Abramson) 683 (Sept.)
Cysts, mammary, cause, diagnosis, and cancerous potential (Ochsner) 343 (May)

D

Deafness *see* Hearing
Death often not difficult or painful (editorial, Alvarez) 165 (Mar.)
Diabetes
  chronic insulin-resistant, cause and treatment (Field) 846 (Nov.)
  oral drugs: indications, choice, and contraindications (Faludi) 452 (June)
Diet
  banana, for aged and obese patients (Gasster) 782 (Oct.)
  nervous system control of intake (editorial, Leake) 341 (May)
  special considerations in geriatric patients (editorial, Alvarez) 335 (May)
Digitalis intolerance, arrhythmias resulting from overdose (Dreifus et al.) 494 (June)
Diuretics, mercurial and oral, in refractory congestive heart failure (Herrmann) 581 (July)
Diverticula, gastrointestinal, features and treatment (Thompson & Polish) 479 (June)
Drugs
  anticoagulant *see* Anticoagulants
  for arthritis (Jeffrey) 667 (Sept.)
  for breast cancer (Ferguson) 824 (Nov.)
  for chronic bronchitis (Lepper) 98 (Feb.)
  for diabetes, oral agents (Faludi) 452 (June)
  for hypercholesteremia (Parsons) 31 (Jan.)
  for hypertension, choice (Martz) 938 (Dec.)
  for hypertension, effectiveness and reactions to (Brest et al.) 445 (June)
  for manipulation of aging processes, rationale and history (Freeman) 174 (Mar.)
  for tuberculosis, management of resistance to (Cohen) 49 (Jan.)
  see also Steroids; specific drugs
D-thyroxine, investigative use in hypercholesteremia (Parsons) 36 (Jan.)

E

Ear *see* Hearing
Edema, chronic intractable, extracorporeal ultrafiltration for (Anthone & Anthone) 636 (Aug.)
Electrocardiogram, findings with atrial septal defect after age 40 (Novack et al.) 424 (June)
Emotional stress
in psychosomatic illness, combined medical and psychiatric approach (Zaidens) 693 (Sept.)
interplay of psychologic and physical factors in health and disease (Roessler) 93 (Feb.)
of institutionalization (Kent) 133 (Feb.)
role in intractable asthma (Kraft) 361 (May)
role in postcholecystectomy syndrome (Hansky & Dreiling) 722 (Sept.)
see also Psychoneuroses; Psychotherapy
Emphysema
relation to smoking (editorial, Alvarez) 879 (Dec.)
"senile emphysema" concept without basis (Cander & Blumenthal) 413 (June)
Endocarditis, bacterial (clinicopathologic conference) (Wang et al.) 320 (Apr.)
Endocrine glands *see* Hormones
Enzyme levels in detection of oncoming myocardial infarction (Cosby) 711 (Sept.)
Epilepsy, relation to cerebral neoplasms (Kurtzke) 211 (Mar.)
Erythrocyte sedimentation rate in various heart disorders (Sanghvi) 382 (May)
Esophagus
hiatus sliding hernia: features, diagnosis, and medical and surgical treatment (Dagradi & Rappaport) 642 (Aug.)
indications for esophagectomy and esophagocoloplasty in benign and malignant lesions (Gregorie) 73 (Jan.)
Zenker's diverticula affecting (Thompson & Polish) 481 (June)
Exercises *see* Rehabilitation
Eye
changes with aging (editorial, Alvarez) 879 (Dec.)
seasonal allergic conjunctivitis (Tuft & Girsh) 566 (July)

F

Face, trigeminal neuralgia in women, cause (Gardner) 731 (Oct.)
Fibrinolysis in strokes (Cain et al.) 513 (July)
FOREFRONT
Albert Einstein Medical College, research and clinical cooperation 50A (Apr.)
American Heart Association meeting, reports on lipids and heart disease 66A (Jan.)
Brown University's longitudinal study of 600 married couples in seventh decade 116A (Mar.)
Duke University Center for Study of Aging, investigation of reaction time and EEG's 42A (June)
Duke University Center for Study of Aging, new facilities 68A (May)
FAA research at Georgetown University on retirement age of pilots 40A (Dec.)
Gerontological Branch of National Heart Institute, longitudinal study 54A (Oct.)
Gerontology Branch of National Heart Institute, long-term studies 48A (Jan.)
Johns Hopkins study of cell aging 66A (Jan.)
Miami University Aging Center, research projects 54A (Feb.)
National Council on Aging finds furniture designs unsuitable 42A (Nov.)
National Institute of Mental Health study on biological and behavioral aging 40A (Aug.)
Western Reserve University geriatric rehabilitation program 44A (July)
Western Reserve University, nutritional studies 40A (Sept.)
Fractures
hip, in psychiatric patients, factors in incidence and prognosis (Oltman & Friedman) 903 (Dec.)
leg, rehabilitation program in general hospital (Steinberg & Frost) 160 (Feb.)
surgical neck of humerus, initial treatment (Drapanas) 538 (July)
Fungus disease, respiratory aspergillosis: types, etiology, symptoms, and diagnosis (Villar) 883 (Dec.)

G

Gallbladder
calculi, age and sex ratios (editorial, Alvarez) 729 (Oct.)
calculi, complications related to age in series of 700 (Hoerr) 754 (Oct.)
postcholecystectomy syndrome, psychogenic and physiologic factors (Hansky & Dreiling) 721 (Sept.)
Gastrointestinal tract
changes with aging (Middleton) 171 (Mar.)
see also Intestines; Stomach
Geriatrics *see* Aged and Aging
GERIFACTS (Medical Statistics)
arteriosclerosis 120A (Apr.)
arthritis 106A (Feb.)
atherosclerosis and coronary disease 40A (May)
changing disease patterns 106A (Jan.)
chronic diseases 68A (Sept.)
constipation 74A (July)
diabetes, incidence and prognosis 60A (Aug.)
hypertension 78A (Mar.)
malnutrition and weight control 68A (June)
obesity after 40 years 66A (Oct.)
postoperative convalescence factors 72A (Nov.)
profile of a geriatrician 70A (Dec.)
GERISCOPE (Washington News)
accident prevention 42A (Jan.)
age-group changes 24A (July)
Center for Aging Research incorporated into new National Institute of Child Health and Human Development 36A (Mar.)
civil rights and Medicare 20A (Aug.)
disappointment in gerontology program of National Institute of Child Health and Human Development 20A (July)
exploitation of elderly consumer 38A (Mar.)
five cities to develop pilot projects on employment of workers over 50 21A (Oct.)
grants to medical schools for departments of gerontology 16A (Sept.)
HEW and Kerr-Mills program 20A (June)
HEW and lawmakers compromise on care for aging 16A (Oct.)
income of aged 26A (Dec.)
income of husband-wife families 21A (Oct.)
influence of Medicare on 1962 elections 30A (Jan.)
introduction of bills affecting aged 30A (Mar.)
legislative scoreboard of 1962 Congress in field of aging 34A (Jan.)
MAA plans in effect 22A (Sept.)
MAA programs under attack by Senate Special Committee on Aging 22A (Dec.)

medical care costs 24A (July)
medical care for OAA recipients 30A (July)
Medicare interest lagging 22A (July)
National Institute of Child Health and Human Development presents small budget for aging 20A (June)
new version of King-Anderson bill 32A (Apr.)
nursing home census 34A (Jan.)
older M.D.'s in specialties and in retirement 30A (May)
outlook for congressional action on medical care 20A (Sept.)
party allegiance of elderly in 1962 elections 30A (Jan.)
protective role of physician in guardianship and financial matters 22A (June)
retirement and employment problems 22A (Nov.)
rise in Social Security taxes 36A (Mar.)
Rockefeller stand on federal health insurance 24A (July)
rural age group distribution 38A (Mar.)
Senate Special Committee on Aging checks Smathers 22A (July)
Senate Special Committee on Aging reports 22A (May)
Senior Citizens Community Planning and Services Act introduced 18A (June)
Smathers new chairman of Committee on Aging 18A (May)
suicide among aged, causes 46A (Feb.)
tax benefits for medical expenses asked by AMA 30A (May)
tax benefits of House tax-reduction bill 26A (Dec.)
unemployment 30A (May)
urban renewal projects 46A (Apr.)
VA load increasing 20A (Aug.)
various health bills pass Congress 28A (Nov.)
Ways and Means Committee lineup against King-Anderson bill 27A (July)
Gerontology, Sixth International Congress (editorial, Leake) 881 (Dec.)
Gout and pseudogout syndromes (McCarty) 467 (June)
Government and legislation for aged *see* Geriscope
Growth hormone levels in aging patient (McGavack) 190 (Mar.)

H

Hair, alopecia in women, distribution pattern (Maguire & Kligman) 329 (Apr.)
Hand-shoulder syndrome in coronary disease, varying causes and case reports (Rosen & Graham) 525 (July)
Hay fever *see* Allergies
Headache, types and significance (Lovshin) 774 (Oct.)
Hearing
factors in loss (editorial, Leake) 506 (July)
problems and rehabilitation (Alpiner) 19 (Jan.)
Heart
arteriosclerotic disease, relation to diet and cholesterol levels 40A (May)
changes with aging (Middleton) 170 (Mar.)
congenital lesions: atrial septal defect in patients over 40, special features (Novack et al.) 421 (June)
congestive failure, suspected refractory, management (Herrmann) 578 (July)
coronary disease *see* Coronary artery
disorders a poor prognostic sign in stroke (Cooper et al.) 6 (Jan.)
erythrocyte sedimentation rate in various disorders (Sanghvi) 382 (May)
failure with intractable edema, extracorporeal ultrafiltration for (Anthone & Anthone) 636 (Aug.)
myocardial infarction *see* Infarction
syphilitic disorders (Beerman & Schamberg) 68 (Jan.)
Hemodialysis for chronic intractable edema of kidney or heart failure (Anthone & Anthone) 636 (Aug.)
Hemorrhage
hemoptysis of aspergilloma (Villar) 886 (Dec.)
with long-term anticoagulants, antidotes for (Vigran) 931 (Dec.)
Heparin
for long-term therapy in various disorders (Vigran) 921 (Dec.)
to reduce serum cholesterol levels (Parsons) 37 (Jan.)
Hernia
diaphragmatic, differentiation from other causes of chest pain (Rawlings) 146 (Feb.)
esophageal hiatus sliding: features, diagnosis, and medical and surgical treatment (Dagradi & Rappaport) 642 (Aug.)
Hip fractures in psychiatric patients, factors in incidence and prognosis (Oltman & Friedman) 903 (Dec.)
Hormones
as factor in development and treatment of breast cancer (Ferguson) 821 (Nov.)
endocrine gland changes with aging (McGavack) 181 (Mar.)
estrogens for hypercholesteremia (Parsons) 34 (Jan.)
for osteoporosis (Chu & Abramson) 690 (Sept.)
Hospitals *see* Institutions
Hypertension
current concepts of management (Martz) 936 (Dec.)
hereditary tendency revealed by cold pressor test (editorial, Alvarez) 585 (Aug.)
many-factor theory of production (editorial, Alvarez) 793 (Nov.)
pulmonary, differentiation from other causes of chest pain (Rawlings) 141 (Feb.)
renal, diagnosis (McDonald) 589 (Aug.)
renal, diagnosis and surgical treatment (Gifford & Poutasse) 761 (Oct.)
systolic and diastolic, management (Brest et al.) 444 (June)
Hyperventilation syndrome, differentiation from other causes of chest pain (Rawlings) 148 (Feb.)
Hypoxia, defenses against and treatment (Penman) 807 (Nov.)
Hysterectomy, effect on female cardiovascular system (Williams & Novak) 852 (Nov.)

I

Incontinence of neurovesical disease (Thompson & Dingsor) 85 (Feb.)
Infarction
myocardial, acute, appraisal of anticoagulant therapy (Blake) 291 (Apr.)
myocardial, impending, diagnosis (Cosby) 708 (Sept.)
myocardial, sedimentation rate with (Sanghvi) 387 (May)
pulmonary, differentiation from other causes of chest pain (Rawlings) 141 (Feb.)

Injury
brain, causing speech defects (Nielsen) 832 (Nov.)
causes after 60 (editorial, Alvarez) 257 (Apr.)
Insect bites and stings causing pruritic dermatitis (Tuft & Girsh) 567 (July)
Institute on "Problems of Aging" (VA Hospital, Coatesville, Pa.) 167-254 (Mar.)
Institutions
admission rates for retired persons (editorial, Alvarez) 1 (Jan.)
emotional stress of admission (Kent) 133 (Feb.)
nursing home care for patients with psychological and neurological problems (Cohen) 871 (Nov.)
Insulin resistance, cause and treatment (Field) 846 (Nov.)
Intestines
diverticula, diagnosis and treatment (Thompson & Polish) 483 (June)
polyps, malignant potential and surgical treatment (Colcock) 520 (July)
Iron absorption in healthy aged (Freiman et al.) 716 (Sept.)

J

Jakob-Creutzfeldt syndrome, description (Schlezinger 199 (Mar.)

K

Kidney
failure with intractable edema, extracorporeal ultrafiltration for (Anthone & Anthone) 636 (Aug.)
hepatorenal syndrome, clinicopathologic study (Spellberg et al.) 837 (Nov.)
hypernephroma: diagnosis, types, and treatment (Murphy & Schirmer) 354 (May)
insufficiency following renal and extrarenal disorders (Heider & Brest) 489 (June)
pyelonephritis of neurogenic bladder, management (Thompson & Dingsor) 87 (Feb.)
relation of pyelonephritis and occlusive disease to hypertension (Martz) 937 (Dec.)
renal hypertension, diagnosis (McDonald) 589 (Aug.)

L

Larynx cancer, treatment according to functional ability (Barton) 283 (Apr.)
Leg, semiquantified constriction test for early deep venous thrombosis (Lynn et al.) 713 (Sept.)
Legislation *see* Geriscope
Lipids
cholesterol-lowering drugs (Parsons) 31 (Jan.)
effect of cream intake on electrocardiogram and coagulation (Geill) 867 (Nov.)
Liver, hepatorenal syndrome, clinicopathologic study (Spellberg et al.) 837 (Nov.)
Lung
aspergilloma: types, etiology, symptoms, and diagnosis (Villar) 883 (Dec.)
bronchial adenoma, differential diagnosis (Zellos) 107 (Feb.)
cancer *see* Cancer
contractive ability, biopsy evidence of alveolar smooth muscle action (Corssen) 568 (July)
differentiation of pulmonary and other causes of chest pain (Rawlings) 149 (Feb.)
morphologic changes with age (Cander & Blumenthal) 413 (June)
pyogenic abscess, diagnostic difficulties and treatment (Wolcott & Morgan) 378 (May)
Lupus erythematosus, association with cancer (Mackenzie & Scherbel) 745 (Oct.)
Lymph vessels
drainage patterns in breast cancer (Ferguson) 819 (Nov.)
scalene biopsy in diagnosis of lung cancer (editorial, Briggs) 880 (Dec.)
scalene biopsy in diagnosis of lung cancer and assessment of operability (Lees) 933 (Dec.)

M

Mediastinal disorders differentiated from other causes of chest pain (Rawlings) 149 (Feb.)
Meningitis
diagnosis, course, and prognosis (Quaade) 860 (Nov.)
forms in older patients (Schlezinger) 200 (Mar.)
Mental status
functional senility, rehabilitation (Alders) 315 (Apr.)
research on psychologic and behavior changes with aging (Birren) 393 (May)
see also Emotional stress; Psychoneuroses
Muscle
changes with aging (Middleton) 173 (Mar.)
disorders in aged (Schlezinger) 199 (Mar.)
musculoskeletal symptoms of cancer (Mackenzie & Scherbel) 745 (Oct.)

N

Neuralgia
intercostal, differentiation from other causes of chest pain (Rawlings) 145 (Feb.)
trigeminal, in women, cause (Gardner) 731 (Oct.)
Nervous system, central
changes with aging (Berry) 202 (Mar.)
disorders in aged (Schlezinger) 197 (Mar.)
involvement in behavioral changes of aging (Birren) 393 (May)
syphilitic lesions (Beerman & Schamberg) 70 (Jan.)
Nicotinic acid to reduce serum cholesterol values (Parsons) 34 (Jan.)
Nutrition *see* Diet

O

Occupational medicine, health problems of middle-aged employees (Howe) 673 (Sept.)
Occupational therapy
in state mental hospitals, need for (Whittier) 865 (Nov.)
preventive and institutional use (Wolff) 251 (Mar.)
Osteoporosis *see* Bones
Oxygen for respiratory failure (Penman) 812 (Nov.)

P

Pain *see* Neuralgia
Parathyroid glands, changes with aging (McGavack) 186 (Mar.)
Parkinsonism
causing speech defects (Nielsen) 827 (Nov.)
course in older patients (Schlezinger) 198 (Mar.)
gross and microscopic cerebral changes (Berry) 209 (Mar.)
impairment of manual skill in (Talland) 613 (Aug.)
rehabilitation program in general hospital (Steinberg & Frost) 161 (Feb.)
Parotid gland infection caused by dry mouth due to tranquilizer therapy (Ragheb) 627 (Aug.)

Peptic ulcer
of esophagus (Dagradi & Rappaport) 652 (Aug.)
perforated, diagnosis and treatment (Dean & Clark) 621 (Aug.)
Pericarditis, differentiation from other causes of chest pain (Rawlings) 140 (Feb.)
Peripheral vascular disease, indications for long-term anticoagulant therapy (Vigran) 919 (Dec.)
Phosphatase, alkaline, relation of blood levels to osteoporosis (Pelz et al.) 349 (May)
Phosphorus
radioactive, for polycythemia vera (Brodsky) 462 (June)
relation of blood levels to osteoporosis (Pelz et al.) 349 (May)
Physical examination, overemphasis in military and industrial selections (editorial, Alvarez) 83 (Feb.)
Pick's disease causing speech deficits (Nielsen) 831 (Nov.)
Pineal gland, changes with aging (McGavack) 184 (Mar.)
Pituitary gland, changes with aging (McGavack) 189 (Mar.)
Pleural disorders, differentiation from other causes of chest pain (Rawlings) 149 (Feb.)
Pneumonia, prevention and treatment (Reimann) 432 (June)
Pneumothorax, spontaneous, differentiation from other causes of chest pain (Rawlings) 148 (Feb.)
Polycythemia vera, recent concepts of etiology, differential diagnosis, and treatment (Brodsky) 457 (June)
Polyps of stomach, colon, or rectum: malignant potential and surgical treatment (Colcock) 519 (July)
Prayer for aged (editorial, Alvarez) 336 (May)
Pregnancy, possibility in older patients taking oral contraceptives (editorial, Leake) 412 (June)
Proctoscopy, value of routine use (Linn et al.) 877 (Nov.)
Prostatitis, chronic, depressive reaction to (Lewin) 261 (Apr.)
Psychoneuroses
behavioral aspects (Rosenblum & Bachrach) 247 (Mar.)
depression, necessity of individualizing diagnosis and treatment (Nodine et al.) 429 (June)
depression, salient external factors (Levin) 302 (Apr.)
depressive reactions to prostatitis (Lewin) 261 (Apr.)
due to shift in social, family, and institutional roles (Leveen & Priver) 57 (Jan.)
following stroke (Davidson) 151 (Feb.)
fractures of hip in hospitalized psychiatric patients (Oltman & Friedman) 903 (Dec.)
relation of psychologic health and disorders to disease resistance (Roessler) 93 (Feb.)
varieties of presenile and senile disorders (Schlezinger) 198 (Mar.)

Rib syndrome, differentiation from other causes of chest pain (Rawlings) 144 (Feb.)
Ribonucleic acid reduction in aging (Berry) 206 (Mar.)
Roentgen examination
arteriography in surgical evaluation of strokes (Cain et al.) 511 (July)
diagnosis of atrial septal defect in patients over 40 (Novack et al.) 425 (June)
diagnosis of stroke by retrograde cerebral angiography, safety, results and technique (Kuhn) 796 (Nov.)
diagnosis of various types of osteoporosis (Chu & Abramson) 683, 685, 687 (Sept.)
differential diagnosis of bell-like images in lung (Villar) 885, 888 (Dec.)
findings in trigeminal neuralgia (Gardner) 734 (Oct.)
Roentgen therapy
for cancer of skin (Knox & Freeman) 656 (Aug.)
for cancer, uses and management of reactions (Turner) 39 (Jan.)
for cancer, uses in different stages (Ferguson) 820 (Nov.)

S

Sex glands, changes with aging (McGavack) 187 (Mar.)
Shoulder
exercises to prevent frozen joint after fracture of neck of humerus (Drapanas) 538 (July)
shoulder-hand syndrome in coronary disease, varying causes and case reports (Rosen & Graham) 525 (July)

Skin
cancer *see* Cancer
changes with aging (Middleton) 170 (Mar.)
diseases and emotional component peculiar to aged (Haserick) 740 (Oct.)
pigment accumulations in aging (Berry) 205 (Mar.)
seasonal allergies (Tuft & Girsh) 567 (July)
tumors, diagnostic accuracy in various types (Freeman & Knox) 546 (July)
Smoking, relation to mortality from heart and lung disease (editorial, Alvarez) 879 (Dec.)
Speech deficits of middle life (Nielsen) 827 (Nov.)
Spine
cervical or thoracic disorders, differentiation from other causes of chest pain (Rawlings) 145 (Feb.)
progressive muscular atrophies causing speech deficits (Nielsen) 828 (Nov.)
Steroids
for arthritis, local and systemic (Jeffrey) 668 (Sept.)
for asthma, indications and choice of drug (Itkin) 703 (Sept.)
Stomach
benign and malignant lesions, tetracycline fluorescence of gastric sediment in diagnosis (Berk & Kantor) 787 (Oct.)
diverticula, diagnosis (Thompson & Polish) 482 (June)
polyps, malignant potential and surgical treatment (Colcock) 519 (July)
surgery for ulcer, postoperative management (Dean & Clark) 624 (Aug.)
Stroke *see* Cerebrovascular disorders
Surgery
mortality rates for retired men (editorial, Alvarez) 662 (Sept.)
vigor, not age, of patient important factor in safety (editorial, Leake) 586 (Aug.)
Syphilis
diagnosis and treatment in late stages (Beerman & Schamberg) 64 (Jan.)
differential diagnosis from other degenerative disease (Schlezinger) 201 (Mar.)

T

Tests
for cardiac disorders, erythrocyte sedimentation rate (Sanghvi) 382 (May)
for control of oral anticoagulants (Vigran) 925 (Dec.)
for deep venous thrombosis, cuff pain method (Lynn et al.) 713 (Sept.)
for determining collateral circulation in strokes (Cain et al.) 509 (July)
for differential diagnosis of stomach lesions, tetracycline fluorescence (Berk & Kantor) 787 (Oct.)
for dyspnea, comparison of ventilation studies and match test (Cohen & Crandall) 265 (Apr.)
for impending myocardial infarction (Cosby) 710 (Sept.)
for renal hypertension (McDonald) 590 (Aug.)
Tetracycline fluorescence test for gastric lesions (Berk & Kantor) 787 (Oct.)
Thrombosis, deep venous, sphygmomanometer cuff pain test (Lynn et al.) 713 (Sept.)
Thymus gland, changes with aging (McGavack) 183 (Mar.)
Thyroid gland
changes with aging (McGavack) 189 (Mar.)
changes with aging (Middleton) 172 (Mar.)
nodules: diagnosis, malignant potential, and surgical treatment (Marchetta) 602 (Aug.)
Touch, decline in acuity with age (editorial, Leake) 340 (May)
Tracheostomy for respiratory difficulties after chest surgery (Gilston) 535 (July)
Tranquilizers, parotid infection due to dry mouth during therapy (Ragheb) 627 (Aug.)
Transfusions, morbidity and mortality resulting from misuse (Mitty & Echemendia) 368 (May)
Triparanol to reduce serum cholesterol values (Parsons) 34 (Jan.)
Tuberculosis, drug-resistant bacilli, management (Cohen) 49 (Jan.)
Tumors
brain, types and incidence in older patients (Kurtzke) 211 (Mar.)
bronchial adenoma, diagnosis and treatment (Zellos) 107 (Feb.)
hypernephroma: diagnosis, types, and treatment (Murphy & Schirmer) 354 (May)
pulmonary aspergilloma: types, etiology, symptoms, and diagnosis (Villar) 883 (Dec.)
skin, diagnostic accuracy in benign and malignant types (Freeman & Knox) 546 (July)

U

Urinary tract, changes with aging (Middleton) 172 (Mar.)
Urine
diversion for neurogenic bladder (Clark) 277 (Apr.)
retention and incontinence due to neurogenic bladder, management (Thompson & Dingsor) 85 (Feb.)
Uterus
cervical cone biopsies, value (Schulman) 608 (Aug.)
effect of hysterectomy on female cardiovascular system (Williams & Novak) 852 (Nov.)

V

VIEWPOINT OF:
Dr. Robert A. Aldrich on aging as part of entire biological sequence 56A (Dec.)
Dr. James E. Birren on complex approaches to problems of aging 100A (Feb.)
Dr. Ewald W. Busse on necessity of self-evaluation by physician 60A (Mar.)
Dr. Austin B. Chinn on public attitude toward problems of aged 30A (Sept.)
Dr. Robert H. Dovenmuehle on depression in geriatric illness 114A (Apr.)
Dr. Joseph T. Freeman on gearing therapy to components of aging 62A (July)
Dr. Jack C. Haldeman on areawide planning for aged care 52A (Aug.)
Dr. Robert R. Kohn on relation of collagen to aging 38A (Oct.)
Dr. Maurice E. Linden on geriatric goals 60A (June)
Dr. Nathan W. Shock on neglect of gerontology by profession 98A (Jan.)
Dr. Jeremiah Stamler on well-patient care 48A (May)
Dr. Alan T. Welford on work for older people 56A (Nov.)

ABSTRACT INDEX

Acetazolamide, effect on gastric secretion (Emas) 86A (Sept.)
Adhesives, plastic, for control of liver hemorrhage (Just-Viera et al.) 92A (Apr.)
Aged and aging, multiple disease processes in (Wilson et al.) 98A (May)
Aluminum nicotinate with phenindione for peripheral vascular ischemia (Tandowsky) 102A (May)
Amputation, above-knee, temporary prostheses for (Clippinger) 97A (Nov.)
Amytal sodium, prognostic test for hypertension (Veterans Administration study) 90A (Feb.)
Anemia, iron-deficiency, iron-sorbitol compared with iron-dextran therapy (Pringle et al.) 90A (May)
Anesthesia
  in reserpine-treated patients (Munson & Jenicek) 104A (May)
  transsacral block in anorectal surgery (Traina) 94A (Mar.)
Aneurysms, intracranial, hypothermia for surgery (Boba) 86A (Aug.)
Angina pectoris
  diuretics and digitalis for (Levy) 83A (Sept.)
  heparin for (Hughes et al.) 88A (Oct.)
Anticoagulant therapy
  for acute myocardial infarction, ideal control time (Fitzgerald) 82A (June)
  for myocardial infarction, need determined by clinical history (Russek) 94A (Dec.)
  jejunal hematoma complicating (Silbert et al.) 96A (Sept.)
Anus
  hemorrhoids, recent trends in treatment (Howard) 100A (Dec.)
  transsacral block anesthesia (Traina) 94A (Mar.)
Aorta, coarctation, reserpine for (Actis-Dato & De Giorgi) 88A (Nov.)
Arrhythmias, sustained-release quinidine tablets for atrial fibrillation (Cramer et al.) 94A (Dec.)
Arteries
  angiography *see* Roentgen examination
  arteriosclerosis, occupational differences in mortality due to (Taylor et al.) 84A (Apr.)
  cerebral *see* Brain
  femoral, lumbar sympathectomy before anastomosis in dogs (Casten et al.) 104A (May)
  pulmonary embolism, caval ligation to prevent recurrence (Carroll et al.) 82A (Aug.)
  superior mesenteric insufficiency, endarterectomy to prevent infarction of gut (Middleton) 90A (July)
  superior mesenteric occlusion, early surgical treatment (Mavor et al.) 94A (May)
Arthritis, knee, degenerative, meniscal derangement in (Sideman & Siegel) 81A (Apr.)
Ascites, cirrhotic, infusion of ascitic fluid after paracentesis (Kaiser et al.) 102A (May)
Asthma, combined drug therapy (Chamberlain et al.) 86A (Sept.)
Atherosclerosis *see also* Arteries; Lipids

B

Back
  sciatic pain, causes and treatment (Barr & Riseborough) 84A (Sept.)
  see also Spine
Bladder, spastic external sphincter, transvesical neck resection for (Jeejeebhoy) 102A (Mar.)
Blood
  erythropoiesis in myelofibrosis, hormone stimulation (Kennedy) 112A (May)
  preoperative volume, evaluation in debilitated patient (Blakeley et al.) 86A (Jan.)
Blood pressure
  hypotensive reactions to parenteral reserpine (Fletcher) 96A (Aug.)
  see also Hypertension
Blood vessels
  impaired peripheral circulation, dextran for (Powley) 109A (Nov.)
  peripheral ischemia, aluminum nicotinate and phenindione for (Tandowsky) 102A (May)
  see also Arteries
Bones, fluoride deposition in (Marier et al.) 93A (Oct.)
Brain
  aneurysms, surgical treatment under hypothermia (Boba) 86A (Aug.)
  angiography, complications in 2,000 patients (Feild et al.) 76A (Jan.)
  increased fluid pressure, mannitol for (Wise & Chater) 82A (Aug.)
  vascular accidents in hypertensives prevented by drug therapy (Lee et al.) 100A (Oct.)
Breast cancer *see* Cancer
Bunamiodyl sodium, fatal reaction to (Gottlieb et al.) 82 (Jan.)

C

Cancer
  breast and genital, estrogen treatment not responsible for (Wilson) 98A (Mar.)
  breast, in male, relation to prostatic cancer (Pribe) 100A (May)
  breast, influence of surgery on survival (Devitt) 96A (Apr.)
  breast, management (Kraft & Block) 90A (July)
  breast, metabolic liberation of heat by cells (Lawson & Ghughtal) 90A (Aug.)
  chemotherapy by regional perfusion (Krementz et al.) 80A (Jan.)
  chemotherapy, serum enzyme changes during (Kabakow et al.) 86A (Jan.)
  chemotherapy, sodium thiosulfate with nitrogen mustard (Hatiboglu et al.) 94A (July)
  chemotherapy, uses and agents (Hurley) 109A (May)
  chest, recurrent pleural effusion due to, talc poudrage for (Camishion et al.) 82A (Apr.)
  colon and rectum, recurrence rates (Hughes & Cuthbertson) 100A (Sept.)
  colon, with coexisting diverticulitis (Speer & Bacon) 76A (Apr.)
  endometrium, preoperative radium for (Allen & Fraleigh) 92A (Aug.)
  head and neck, antimetabolite infusion for (Lawton et al.) 110A (May)
  head and neck, search for distant metastases vital before operation (Gowen & deSuto-Nagy) 93A (Oct.)
  larynx, total excision followed by radiotherapy (Simonetta & Giaccai) 98A (Mar.)
  liver, partial hepatectomy for (Woodington & Waugh) 83A (Sept.)
  lung, bronchogenic, diagnosis (De Niord) 97A (Oct.)
  lung, incidence in firemen (Saland & Seley) 94A (July)
  lung, survival after resection (Shimkin et al.) 84A (Feb.)

lymphosarcoma of conjunctiva, x-ray therapy (Duggan) 96A (May)
nasopharyngeal, radiation therapy (Wang et al.) 96A (Sept.)
prostate *see* Prostate
spine, simulating herniated lumbar disk (Wetzel et al.) 105A (Nov.)
stomach, relation of morphology to curability (Monafo et al.) 98A (May)
Cerebrovascular disorders *see* Brain
Chlorambucil for cancer palliation (Hurley) 109A (May)
Cholesterol *see* Lipids
Circulation *see* Blood vessels
Cirrhosis
ascites, infusion of ascitic fluid after paracentesis (Kaiser et al.) 102A (May)
niacin metabolism in (Gabuzda & Davidson) 94A (Sept.)
Cold *see* Hypothermia
Colon
cancer, recurrence rates (Hughes & Cuthbertson) 100A (Sept.)
coexisting diverticular and neoplastic disease (Speer & Bacon) 76A (Apr.)
endometriosis (Williams) 88A (Nov.)
fatal ischemia following shock (Marston) 82 (Jan.)
hemorrhagic diverticulosis, early resection (Davis) 80A (Jan.)
mesenteric occlusion, early surgical treatment (Mavor et al.) 94A (May)
resection in elderly (Mayo & Johnson) 79A (Feb.)
Coronary artery disease
CPD vasodilator (Burgison et al.) 96A (May)
environmental factors in thrombosis (Brown) 76A (Jan.)
ergonovine test for insufficiency (Stein) 90A (Aug.)
heparin for pain (Hughes et al.) 88A (Oct.)
Corticosteroids *see* Steroids

D

Decubitus ulcer, Decubicare Pad for (Lieberman et al.) 92A (Apr.)
Depo-Medrol, subconjunctival, for ocular inflammation (Coles et al.) 88A (Apr.)
Dextran for peripheral ischemia (Powley) 109A (Nov.)
Diabetes, steroid diet for retinopathy (Fabrykant) 104A (May)
Diet
psychological factors in habits of elderly (Zetterstrom) 82A (Apr.)
steroid, for diabetic retinopathy (Fabrykant) 104A (May)
Digitalis
dose and toxicity influenced by myocardial potassium content (Sampson) 96A (Nov.)
with diuretics for angina (Levy) 83A (Sept.)
Diuretics with digitalis for angina (Levy) 83A (Sept.)
Diverticula
coexistent diverticulitis and cancer of colon (Speer & Bacon) 81A (Apr.)
hemorrhagic diverticulosis of colon, early resection for (Davis) 80A (Jan.)
Drugs
anticancer *see* Cancer, chemotherapy
antidepressive, tryptophan potentiates (Coppen et al.) 83A (Sept.)
errors in self-administration (Schwartz et al.) 92A (Aug.)
Dumping syndrome
roentgen signs (Mattsson & Perman) 100A (May)
serotonin in mechanism of symptoms (Drapanas et al.) 79A (Feb.)
Dysphagia of oculopharyngeal muscular dystrophy (Victor et al.) 80A (June)

E

Embolism, recurrent pulmonary, ligation of inferior vena cava for (Carroll et al.) 82A (Aug.)
Emphysema, obstructive, causing respiratory acidosis and insufficiency, vanillic diethylamide for (Said & Banerjee) 84A (June)
Endometrium
cancer, preoperative radium for (Allen & Fraleigh) 92A (Aug.)
endometriosis of colon in elderly women (Williams) 88A (Nov.)
Enzymes
changes during cancer chemotherapy (Kabakow et al.) 86A (Jan.)
hydroxybutyric dehydrogenase test for myocardial infarction (Konttinen & Halonen) 88A (Apr.)
isocitric dehydrogenase test for liver disease (Saad et al.) 84A (Oct.)
lactic dehydrogenase test for strangulation obstruction (Laufman et al.) 96A (Sept.)
Eyes
diabetic retinopathy, steroid diet for (Fabrykant) 104A (May)
increased intraocular pressure with systemic steroid therapy (Alfano) 94A (Dec.)
inflammatory diseases, subconjunctival methylprednisolone for (Coles et al.) 88A (Apr.)
intraocular pressure studies with methyl-dopa (Laibson et al.) 84A (June)
lid ptosis of oculopharyngeal muscular dystrophy (Victor et al.) 80A (June)
lymphosarcoma of conjunctiva, x-ray therapy (Duggan) 96A (May)
macular lesions in patients over 65 (Wood) 90A (Oct.)

F

Facial palsy, nerve-excitability test (Campbell) 88A (Nov.)
Fibrinolysin with heparin to prevent irreversible hemorrhagic shock (Hardaway & Drake) 88A (Aug.)
Fistula, primary aortoduodenal, causing gastrointestinal hemorrhage (Garrett et al.) 82A (June)
Fluoride accumulation in skeletal structure (Marier et al.) 93A (Oct.)
5-Fluorouracil for cancer palliation (Hurley) 109A (May)
Folic acid, minimum requirement for women (Herbert) 80A (June)

G

Gastrointestinal tract *see* Colon; Hemorrhage; Intestines; Stomach
Gout
diagnosis confirmed by urate crystals in synovial fluid (Zvaifler & Pekin) 94A (Sept.)
hemodialysis ineffective for (Duncan et al.) 101A (Nov.)
Grafts, cross-leg pedicle flap, uses (Hayes) 84A (Aug.)

H

Head *see* Brain; Cancer
Heart
atrial fibrillation, sustained-release quinidine tablets for (Cramer et al.) 94A (Dec.)

quinidine toxicity, isoproterenol to prevent (Gottsegen & Ostor) 105A (Oct.)
resistant failure, spironolactone with hydrochlorothiazide for (Bayley et al.) 100A (May)
systolic murmurs, type and origin (Bethel & Crow) 101A (Nov.)
Hematomas, jejunal, complicating anticoagulant therapy (Silbert et al.) 96A (Sept.)
Hemodialysis for gout, ineffectiveness (Duncan et al.) 101A (Nov.)
Hemorrhage
gastrointestinal, due to aortoduodenal fistula (Garrett et al.) 82A (June)
gastrointestinal, with massive hematemesis and shock, emergency barium study (Oneal & Hirsh) 76A (Apr.)
irreversible shock prevented by heparin and human fibrinolysin (Hardaway & Drake) 88A (Aug.)
liver, plastic adhesive for control (Just-Viera et al.) 92A (Apr.)
Hemorrhoids, recent trends in treatment (Howard) 100A (Dec.)
Heparin
for severe angina after myocardial infarction (Hughes et al.) 88A (Oct.)
repository, as antiatherogenic agent (Cohen & Loewe) 88A (Aug.)
with fibrinolysin to prevent irreversible hemorrhagic shock (Hardaway & Drake) 88A (Aug.)
Herpes zoster, neuralgia following, surgical treatment (Tindall et al.) 96A (May)
Hormones
androgenic, for myelofibrosis (Kennedy) 112A (May)
estrogen therapy not responsible for breast and genital cancer (Wilson) 98A (Mar.)
estrogen therapy of prostatic cancer does not affect atherosclerosis (Meissner & Moehring) 102A (Mar.)
for postmenopausal women (Hirshland & Hill) 84A (Oct.)
Hydroxocobalamin to compensate for severe vitamin B_{12} deficiencies (Glass et al.) 88A (Aug.)
Hyperparathyroidism, serum calcium screening procedure (Boonstra & Jackson) 90A (Sept.)
Hypertension
drug therapy to prevent cerebrovascular accidents (Lee et al.) 100A (Oct.)
methyl-dopa for (Smirk) 84A (Sept.)
prognostic sodium amytal sedation test (Veterans Administration study) 90A (Feb.)
Hypoglycemia causing mental symptoms, surgical treatment (Todd et al.) 94A (Mar.)
Hypothermia
fatal exposure to cold weather (Murphy & Faul) 93A (Nov.)
for intracranial aneurysm (Boba) 86A (Aug.)
Hysterectomy, cystocele repair with (Weinberg & Stone) 90A (Sept.)

I

Immunity, ionizing radiation impairs antibody formation (Brown) 84A (Aug.)
Infarction, myocardial
acute, ideal anticoagulant control (Fitzgerald) 82A (June)
anticoagulant need determined by clinical history (Russek) 96A (Dec.)
radioactive test for atherosclerosis following (Malamos et al.) 97A (Oct.)
serum hydroxybutyric dehydrogenase values in diagnosis (Konttinen & Halonen) 88A (Apr.)
serum mucoprotein elevation after (Campbell et al.) 84A (Aug.)
Intestines
obstruction, enzyme test (Laufman et al.) 96A (Sept.)
see also Colon
Iron, comparison of dextran and sorbitol preparations for anemia (Pringle et al.) 90A (May)
Isoproterenol to control cardiotoxic effects of quinidine (Gottsegen & Ostor) 105A (Oct.)

K

Kidney, fatal insufficiency after use of oral cholecystographic agent (Gottlieb et al.) 82 (Jan.)
Knee, osteoarthritic joint, meniscal derangement in (Sideman & Siegel) 81A (Apr.)

L

Larynx
cancer, total excision followed by radiotherapy (Simonetta & Giaccai) 98A (Mar.)
excision, acquisition of esophageal voice after (Heaver & Arnold) 86A (Sept.)
Leg
edema of pulmonary embolism, vena caval ligation for (Carroll et al.) 82A (Aug.)
venous ulcer, diuretic and antibiotic treatment (Fox) 86A (Aug.)
Leukemia, chronic lymphocytic, x-irradiation and radiophosphorus for (Cook & Romano) 84A (Apr.)
Lipids
hypercholesteremia, drug therapy (Peacock) 101A (Sept.)
respository heparin for long-term control of defective metabolism (Cohen & Loewe) 88A (Aug.)
serum levels after myocardial infarction, radioactive test (Malamos et al.) 97A (Oct.)
serum levels in patients with prostatic cancer unaffected by estrogen therapy (Meissner & Moehring) 102A (Mar.)
Liver
disease, isocitric dehydrogenase test (Saad et al.) 84A (Oct.)
failure, cardiovascular factors in prognosis (Mashford et al.) 81A (Apr.)
hemorrhage, plastic adhesive for control (Just-Viera et al.) 92A (Apr.)
success of partial resection (Woodington & Waugh) 83A (Sept.)
see also Cirrhosis
Lung *see* Cancer

M

Mannitol to lower cerebrospinal fluid pressure (Wise & Chater) 82A (Aug.)
Ménière's disease, syndrome simulating, following whiplash injury (Braaf & Rosner) 84A (Feb.)
Menopausal symptoms, hormone replacement therapy (Hirshland & Hill) 84A (Oct.)
Methotrexate infusions for head and neck cancer (Lawton et al.) 110A (May)
Methyl-dopa
effect on intraocular pressure (Laibson et al.) 84A (June)
for hypertension, comparative evaluation of side effects (Smirk) 84A (Sept.)
Methylprednisolone, subconjunctival, for anterior inflammations of eye (Coles et al.) 88A (Apr.)

Mortality, causes in persons past 90 (Jokipii & Heino) 105A (Nov.)
Muscles
facial paralysis, nerve-excitability test (Campbell) 88A (Nov.)
oculopharyngeal dystrophy (Victor et al.) 80A (June)
Myocardium
effect of potassium content on digitalis dose and toxicity (Sampson) 96A (Nov.)
see also Infarction

N

Neck
whiplash injury, Ménière-like syndrome following (Braaf & Rosner) 84A (Feb.)
see also Cancer
Nerves
acute polyneuritis due to nitrofurantoin therapy in patients with renal insufficiency (Ellis) 99A (Apr.)
postherpetic neuralgia, surgical treatment (Tindall et al.) 96A (May)
sympathectomy before femoral anastomosis in dogs (Casten et al.) 104A (May)
transabdominal vagotomy for stomal ulcer (MacKelvie) 88A (Oct.)
transsacral block in anorectal surgery (Traina) 94A (Mar.)
Nitrates, comparison of CPD and glyceryl trinitrate for coronary dilation (Burgison et al.) 96A (May)
Nitrofurantoin causing polyneuritis with renal insufficiency (Ellis) 99A (Apr.)
Nitrogen mustard
for cancer palliation (Hurley) 109A (May)
tumoricidal effect increased by sodium thiosulfate (Hatiboglu et al.) 94A (July)
Nose cancer, radiation therapy (Wang et al.) 96A (Sept.)
Nutrition *see* Diet

O

Obesity causing respiratory acidosis and insufficiency, vanillic diethylamide for (Said & Banerjee) 84A (June)
Occupational medicine, arteriosclerotic heart disease in clerks and switchmen (Taylor et al.) 84A (Apr.)

P

Pancreas, tumor or hyperplasia causing mental symptoms, excision of excess islet-cell tissue for (Todd et al.) 94A (Mar.)
Paralysis, facial, nerve-excitability test (Campbell) 88A (Nov.)
Parotitis, acute suppurative, antibiotics and drainage for (Krippaehne et al.) 106A (Mar.)
Penicillamine for lead poisoning (Goldberg et al.) 90A (Oct.)
Peptic ulcer, stomal, complete vagal resection for (MacKelvie) 88A (Oct.)
Phenindione with aluminum nicotinate for peripheral vascular ischemia (Tandowsky) 102A (May)
Pleura effusions due to cancer, talc poudrage for (Camishion et al.) 82A (Apr.)
Pneumoperitoneum, absence in roentgen diagnosis of perforated duodenal ulcer not significant (Edwards & Foster) 80A (June)
Poisoning, lead, oral penicillamine for (Goldberg et al.) 90A (Oct.)
Potassium in myocardial fiber, influence on digitalis dose and toxicity (Sampson) 96A (Nov.)
Preoperative care, assessment of blood volume in debilitated patients (Blakeley et al.) 86A (Jan.)
Prostate
cancer, criteria for operability (Russell et al.) 96A (Dec.)
cancer, diagnosis by cytologic examination of centrifuged urinary deposit following massage (Fitzgerald & Ludbrook) 90A (May)
cancer, metastasis to breast (Pribe) 100A (May)
hyperplasia, Deisting's method of dilation (Backman) 82A (Jan.)
Psychoneuroses, antidepressant drug therapy, tryptophan potentiates (Coppen et al.) 83A (Sept.)

Q

Quinidine
reduction of cardiotoxic effects (Gottsegen & Ostor) 105A (Oct.)
sustained-release tablets, advantages (Cramer et al.) 94A (Dec.)

R

Radiation
radium preceding surgery for endometrial cancer (Allen & Fraleigh) 92A (Aug.)
see also Roentgen therapy
Rectum, transsacral block anesthesia (Traina) 94A (Mar.)
Reserpine
continuance of therapy indicated before anesthesia (Munson & Jenicek) 104A (May)
for aortic coarctation (Actis-Dato & De Giorgi) 88A (Nov.)
parenteral, hypotensive reactions to (Fletcher) 96A (Aug.)
Respiratory acidosis and insufficiency from emphysema or obesity, vanillic diethylamide for (Said & Banerjee) 84A (June)
Roentgen examination
carotid angiography, cardiovascular effects of various media (Fischer et al.) 84A (Sept.)
cerebral angiography, complications in 2,000 cases (Feild et al.) 76A (Jan.)
cholecystography, fatal renal insufficiency due to oral medium (Gottlieb et al.) 82 (Jan.)
diagnosis of dumping syndrome (Mattsson & Perman) 100A (May)
emergency barium study of severe hematemesis (Oneal & Hirsh) 76A (Apr.)
Roentgen therapy
after laryngectomy for cancer of larynx (Simonetta & Giaccai) 98A (Mar.)
effect on antibody formation (Brown) 84A (Aug.)
for lymphosarcoma of conjunctiva (Duggan) 96A (May)
for nasopharyngeal cancer (Wang et al.) 96A (Sept.)

S

Serotonin, role in dumping syndrome (Drapanas et al.) 79A (Feb.)
Shock
bowel ischemia following, mechanism and fatal effects (Marston) 82 (Jan.)
hemorrhagic, prevention of irreversibility by heparin and human fibrinolysin (Hardaway & Drake) 88A (Aug.)
Sodium dextro-thyroxine for hypercholesteremia (Peacock) 101A (Sept.)
Spine
herniated disk simulated by cancer (Wetzel et al.) 105A (Nov.)

increased cerebrospinal fluid pressure, mannitol for (Wise & Chater) 82A (Aug.)
Spironolactone with hydrochlorothiazide for refractory heart failure (Bayley et al.) 100A (May)
Steroids
dietary use for diabetic retinopathy (Fabrykant) 104A (May)
intraocular pressure increased by systemic therapy (Alfano) 94A (Dec.)
Stomach
cancer, relation of morphology to curability (Monafo et al.) 98A (May)
secretions, effect of acetazolamide on (Emas) 86A (Sept.)
stomal ulcer, complete vagotomy for (MacKelvie) 88A (Oct.)
Strokes *see* Brain
Surgery *see* Anesthesia; Preoperative care

T

Tests
for cancer of prostate, cytologic examination of urine following massage (Fitzgerald & Ludbrook) 90A (May)
for coronary insufficiency, ergonovine maleate (Stein) 90A (Aug.)
for facial palsy, nerve-excitability (Campbell) 88A (Nov.)
for hyperparathyroidism, serum calcium (Boonstra & Jackson) 90A (Sept.)
for hypertension, prognostic use of sodium amytal (Veterans Administration study) 90A (Feb.)
for lipoproteins, radioactive Raolein (Malamos et al.) 97A (Oct.)
for liver disease, enzyme (ICD) (Saad et al.) 84A (Oct.)
for myocardial infarction, hydroxybutyric dehydrogenase (Konttinen & Halonen) 88A (Apr.)
for strangulated intestines, lactic dehydrogenase (Laufman et al.) 96A (Sept.)
Thio-TEPA for cancer (Hurley) 109A (May)
Thrombosis *see* Coronary artery
Tryptophan to potentiate antidepressants (Coppen et al.) 83A (Sept.)

U

Ulcers *see* Leg; Stomach
Urinary tract, cystocele repair and urethropexy with hysterectomy (Weinberg & Stone) 90A (Sept.)
Uterus *see* Endometrium; Hysterectomy

V

Vanillic diethylamide for respiratory insufficiency and acidosis (Said & Banerjee) 84A (June)
Veins
ligation of inferior vena cava for recurrent pulmonary embolism (Carroll et al.) 82A (Aug.)
ulcer of leg, diuretic and antibiotic therapy (Fox) 86A (Aug.)
see also Blood vessels
Vitamins
B_{12} deficiency, methylmalonic acid as index (Cox & White) 94A (May)
B_{12}, effectiveness of hydroxocobalamin in serious deficits (Glass et al.) 88A (Aug.)
folic acid requirements in women (Herbert) 80A (June)
Voice restoration after laryngectomy (Heaver & Arnold) 86A (Sept.)

W

Whipple's triad, diagnosis (Todd) 94A (Mar.)
